104 E Trinity Blvd. Grand Prairie Texas 75050

Differentiate
YOUR Homes
From the Roof Down!

Let us be your resource for specialty roofing products that will set your homes apart from all the rest. We have a variety of Steel, Synthetic, Slate and Asphalt roofing products that will give your homes a distinctive look. We do business with some of the best roofing contractors that can install any of these products for you and we welcome the opportunity to connect you with these quality contractors.

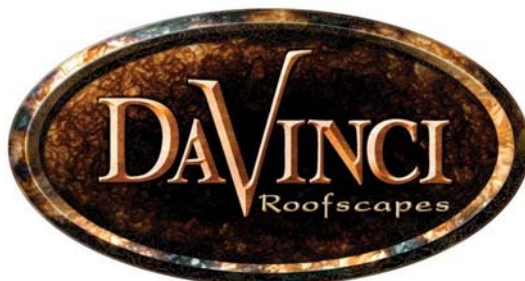

The above picture is a Camelot Roof by GAF. This heavy asphalt laminated shingle offers a slate blend appearance with the application convenience of regular shingles.

The picture to the left is DaVinci Roofscapes a synthetic slate that weighs less than 300# and installs similar to wood shingles. Both roofs offer Class A Fire Rating and ASTM 3161 wind resistance.

WHOLESALE ROOFING SUPPLY

Our Metro tile steel shingle (top photo) is granulated and gives the effect of a true barrel tile without the weight or wait! Kassel and Irons (left center photo) offers 3 colors to simulate wood shakes in a watertight system with an energy star rating. Certainteed Centennial Slate (large right photo) has 7 colors and one of the most unique blends offered in an asphalt shingle. TruSlate (bottom left photo) is real slate in a proprietary installation system that gives you the natural beauty and durability of slate and half the normal weight!
